997-8759

HAPPY 1983 TO ALL !

Hope Santa was kind and all the RFT's, S-C's, PC's and other wish list items magically appeared under the tree.

LUNAR ECLIPSE: The moon is supposed to disappear during a lunar eclipse, and with the help of the clouds this was certainly the case.

LAST DECEMBER: Those members who found the substitute room were treated to some shots of Halley's Comet taken with the 200". It was 8 arc-sec. from predicted position; no wonder I hadn't spotted it thru my binocs.

JANUARY MTG: - FRIDAY JANUARY 28 1983
8 PM
PHOENIX COLLEGE Room C-102 (regular place)
DR BRADLEY WHITMORE, ASU
GYROSCOPIC GALAXIES, A NEW CLASS
