FEB. MEETING:

FRIDAY FEB. 25, 1983
8 PM
PHOENIX COLLEGE ROOM C-102 (usual place)

Dr ROBERT STROM
LUNAR & PLANETARY LAB., TUCSON

FILM: SEQUENCE, from EARTH to SATURN
SLIDES: UNPUBLISHED GOODIES from L & P LAB COLLECTION
PLUS: GALILEAN MISSION UPDATE to 1986

Dr Strom has been kept busy since his last PAS appearance
as a TV talk show guest.

While reservations are not required (or accepted), early
arrival is suggested for good seating.

BRING A FRIEND

JAN. MEETING

Dr Whitmore announced that "STARSTUFF" presentations would
be made 6:30 to 7:45 @ ASU Rm PSF 173 prior to the observation
sessions on the PS (Physical Science) Bldg. Thurs nites. Would
be a good idea to check this out by phone before making the trek.

Much discussion followed the GYROSCOPIC GALAXY talk, regarding
things like: Measuring point values of Red Shift in 17th magnitude
galaxies, INVISIBLE HALOES, and THE MISSING MASS PROBLEM.
Heady stuff.

UPCOMING:

3/25 BILL SPAULDING
4/22 BUSINESS/ELECTIONS + C. CAPEN
5/?? FIELD TRIP Bus trip to Kitt Peak, still in planning stage.
