PASTIMES

PHOENIX ASTRONOMICAL SOCIETY -- FOUNDED 1948

The Meeting is April 20th, at Brophy Prep. (see map on the last page)

Our meetings are at Brophy Prep. Brophy is located about a quarter mile south of Camelback Road, at the Highland Ave intersection. The meeting will be at **7:00 PM** in the Physics lab on the second floor.

The next Meeting will be May 18th.

This month our speaker will be Dan Brocious. He will be giving another of his informative and enjoyable discussions of the most recent technological updates and make-overs concerning the Multiple Mirror Telescope and it's new 6.5 meter plans. Dan also promises to let us in on any other astronomy related news.

The majority of Dan's presentation will consist of the showing of a Russian made and Russian narrated movie concerning the making of the "Bolshoi Teleskop Azimult'myi", or the BTA for all of us non-Russian majors. Dan will provide an English narration.

If anyone owns a reel-to-reel movie projector, it would be much appreciated if it could be brought to the meeting. Dan's projector is a little less than trustworthy at the moment and a backup would be a good safety precaution.

PAS Star Party, April 21st

On Saturday night, April 21st, there will be a joint, all night, star party between the Brophy Astronomy Club and PAS. It will be held at Dan Heim's future new home in New River. Maps will be available at the meeting. Facilities include: water, toilet, concert slabs, and possibly some electricity for setting up telescopes.

It Happened at the Last Meeting...

by Kai Staats

Major James McGaha presented his extensive knowledge in the field of Unidentified Flying Objects according to the Air Force and other military extensions. James' opinion is that of the Tucson Skeptics: that the UFO phenomenon is due solely to atmospheric disturbances, weather balloon, planetary misinterpretations, and launches/reentry of powered rockets. Following the presentation, the members in attendance were involved in an extended discussion.

Riverside Conference

by Kai Staats

All those interested in attending the Riverside Telescope Maker's Conference this year, please attend this meeting to pick up your copy of the registration forms.

Coming Next Month...

The may meeting will bring Carl Berglund from Pasadena, California as our very special speaker. Carl will be giving a presentation on the Galileo project as he has worked at the Jet

Propulsion Lab from the on Galileo from the beginning

Please mark your calendar for Friday evening, the 18th of May as an important night to attend the last Phoenix Astronomical Society of the year and learn loads from one of the men behind the Galileo mission.

For Sale / Want Ads

This space is available for the inclusion of Ads that are intended for buying or selling of Astronomical equipment. Send your printed Ads to Paul Dickson. To prevent confusion and errors, Ads will not be taken over the phone. The deadline is the meeting night.

For Sale: Celestron Super8, tracking, camera attachment, weights, filters. 3.5 years old (in storage for 2.5 years)\$2600. Call Norm Cooper before 10pm at (505) 828-1324. He will deliver to Phoenix.

For Sale: Meade Model 2080/LX3, 8", Schmidt-Cassegrain; Hardly used - excellent condition; Multi-coated/Silvered Optics group; quartz electronic LX drive system (never used); equatorial wedge; 9.7mm & 26mm Super Plossl eyepieces; 2 filters; foam lined carrying case; field tripod. Asking \$975. Call Marty Wicoff at 246-1105 (ans. mach.).

Your 1989/1990 PAS officers:

President	Kai Staats	253-3077
Vice President	Mark Johns	866-8311
Secretary/Treasurer	Keith Parizek	996-1013
Newsletter Editor	Paul Dickson	841-7044
Director	Hermann Andreason	997-8759
Director	Dan Heim	482-8133
Director	Dick Wasson	279-0384

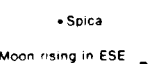

Items to be included should be sent to Paul Dickson, 7714 N 36th Ave, Phoenix, Az. 85051

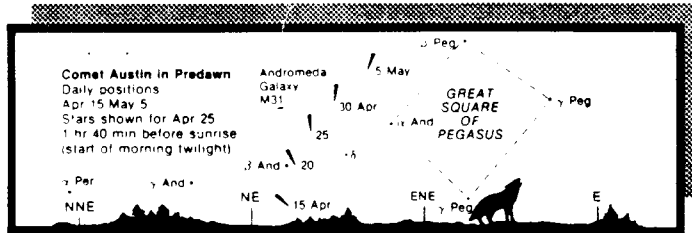

Central Arizona Astronomers

East Valley Astronomy Club
Phoenix Astronomical Society
Saguaro Astronomy Club
