

MAY 1983
NOW IN OUR 35th YEAR

Phoenix Astronomical Society, Inc.

PHOENIX, ARIZONA

PRESIDENT	STANLEY GORODENSKI	944-6639
VICE-PRESIDENT	RAUL ESPINOZA	991-7508
SEC/TREASURER	CHUCK NASH	242-1581
EDITOR	WILLIAM KRIST	254-4057
	1205 E Hubbell	
	Phoenix Arizona 85006	

APRIL: CBS correctly called our election 2 weeks in advance. Besides the officers listed above, Louis Boyd was elected, director. Chuck Nash was drafted for Sec/Treas. and won by a landslide. That vacates his director position, which is to be filled by appointment by the Board. Chuck, while superbly qualified, has other commitments and would like & certainly deserves a breather after serving for half of PAS's existence. So here's a big THANK YOU to Chuck for coming out of retirement to accept this position. Woulda re-upped myself, but have to go over to Zurich to open a new account... really can't understand why the money handling position is difficult to fill.

EDITOR: Bill Krist would appreciate any & all input all (ALL) the members can provide. Send too much, he can always edit out the overflow. Remember GIGO; Good In, Good Out.

ASTRO DAY: Large variety of equipment showed up at Papago Park. Most impressive was a C-14 with video camera feeding a portable TV set. Saturn was a bit fuzzy, but the moon was spectacular and could be viewed by a number of armchair observers simultaneously. Would be ideal if someone knows whereabouts of that or a similar setup for the May meeting.

MAY: Speaking of the May meeting, it is scheduled for Saturday, May 21 at the Beatitudes Center, 17th Drive & W Glendale Ave. (North of the main buildings). The Beatitudes is home for several hundred retirees from all walks of life, including PAS member Shirley Gale who was Hayden Planetarium lecturer for over 20 years. Here's an opportunity to do some lunar/planetary viewing, rub elbows with some interesting people, bring joy to others, and even share their refreshments. Clock-drives are necessary. Power is available, bring a short extension cord. Setup before dark, like 7:30. Any weather postponement would be to the following nite. Please contact Chuck Nash, 242-1581 for details and/or if you plan to attend.

MEM. DAY: Jerry Maurer had nothing but praise for last year's Riverside Telescope Makers Conference at Big Bear Lake. New & unusual equipment and techniques, comraderie with fellow stargazers, bargain meals and lodging. Even more economical with van pooling, call Stan, 944-6639 for details & registration forms. Enjoy.

JUNE: Star party being planned for June 11. Further notice to follow. (BUT NOT BELOW)

SETUP

MAY 21

7:30
